TENTIONY OF THE PROF. OF OBSTETERCS IN PENN. COLDER, PHILADELPHIA.—DR. HUNTER'S MEDICAL MAN. UAL.—The author of this work unlike the majority of those works who advertise to cure the diseases of which it treats, a a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity bey may place the greatest confidence.

JOSEPHI LONGSHORE, M. D.

FROM A. WOODWARD, M. D., or PENN. UNIVERSITY, PHILADELPHIA.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Gential Organs, one of them of hong standing, have come under my notice, in which his skill has been manifest in restoring to perect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal Weakness, or disarrangement of the functions, produced y self abuse or excess of venery. I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice o him, as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose processional skill and integrity, they may safely confide themselves.

ALF. WOODWARD, M. D.

A Presbyterian clergyman in Ohio, in writing of "Huner's Medical Manual, says:—"Thousands upon thousands of our youth, by evit example and influence of the passions, have been led into the habit of self-pollution without realizhave been led into the habit of self-pollution without realizing the sin and fearful consequences upon themselves and posterity. The constitutions of thousands who are raising amilies have been enfechled, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide spread source of human wretshedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. By its aperient and powerful disphoretic properties, added to its Toule qualities, it is rendered eminently superior to quinine and ather remedies as a general and popular Toule in all cases whatever, where Toules are proper to be administered. The proprietor, therefore, respectively invites pracutioners and the public generally to give it but a fair trial, and they will then be convinced of its great superiority over all other remedies now in use for the purpose specified.

Persons living in districts of country subject to Ague and Pever, Chills and Fever, or Slicious Fevers, would do well to keep a supply of this valuable remedy always on hand. The proprietor has now in his possession thousands of certificates of its value, given by persons who have used it, with many letters from merchants who have sold it largely in their country, as well as from many respectable Practioners who have used it in preference to other remedies, at eating its value.

PHILADELPHIA MEDICAL HOUSE,—Established 15 years ago by DR. KINKELIN. The oldest, surest and best hand to cure all forms of secret diseases of the skin, and solitory habits of youth, is DR. KINKELIN, N. W. corner of Third and Union streets, between Sprure and Pine, one and a half squares from the Exchange, Philadelphia.

Take Particular Notice.— Here is a babit which boys teach each other at the academy or college—a habit induged in when by themselves, in solitude, growing up with the hoy to manhood, and which, if not abandoned in due

dulged in when by themselves, in solitate, growing up with
the boy to manhood, and wiach, if not abandoned in due
time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and
devastating affections. Few of those who indulge in this
pernicious practice are aware of the consequences, until they
find the nervous system is shattered, feel strange and unaccountable feelings, vague fears in the mind. The individual
becomes feeble, he is enable to labor with accustomed vigor, or to apply his mind to study, his size is tardy and weak,
he is dull and irresolute, the countenance is downcast, the
eves without natural lustre, shamefacedness is apparent.—
These are symptoms which should invoke the attention of
this similarly afficient.

If the victim be conscious of the cause of his decay, and
having relinquished the oftens practice, he suffers under
those terrible nocturnal emissions, which weaken and shame
him, producing mental and physical prostration. If he
emancipate lamself before the practice has done its worst,
and enter matrimony, his marriage is unfruitful, and his
senses tell him that thus is caused by his early follies.

Too many think they will hug the secret to their own
hearts, and cure themselves. Alas' how often is this a fatal
delusion, and how many a promising youth, who might have
been an ornament to society, has another from the cartld

Young Men!—Let no faise modesty deter you from
making your cast known to one who, from education and remaking your case known to one who, from education and re-spectability, can alone befriend you. He who places himself under DB. KINKELIN'S treatment, may religiously confide under DR. KINKELIN'S treatment, may religiously coulde
